Red Cross Speeds Up Blood Program; Needs Donors, Volunteers

Los Angeles Red Cross regional blood service center officials this week took another major step in the expansion of the blood program by directing hundreds of letters to business firms, industrial plants and other organizations, urging "full cooperation" in the scheduling of bloodmobile visitations.

The chapter operates three bloodmobile divisions making daily visitations to industrial plants, factories, business houses, church groups and others, as well as setting up for operation in nearby community centers, it was pointed out.

The blood service headquarters are open Mondays through Thursdays from 12 (noon) until 7 p.m., and on Fridays from 3 to 9 p.m.

Mrs. Henri Chapellet, newly named chairman of volunteer services, issued an urgent appeal for volunteers to carry out vital chores both at the center headquarters and on the visitations made by the mobile units.

Women interested in this work—particularly typists and those skilled in other office duties, should call the volunteer desk at the blood center, phone REpublic 29161.

Women also are needed to assemble laboratory packets, Mrs. Chapellet stated, adding "that the expanded blood program as planned, will be seriously jeopardized without the enrollment of these volunteer workers."

HOME AGAIN

Mr. and Mrs. Don Wolf and their children, Donna, Judy and Bobby, returned August 1 following six weeks' vacation in the Midwest.

It's a great pity that things weren't so arranged that an empty head, like an empty stomach, wouldn't let its owner rest until he put something in it.

Kettler Kapers

by Virginia Jones

THE KETTLE HOME OWNERS ASSOCIATION MEETING was held Thursday night, but only a very small handful of civic-minded people turned out. J. G. Manier, vice-president, conducted the meeting with Mrs. Robert Williams taking notes. It was voted that street light refunds will be paid on a pro-rata basis. A motion was made that speeding be reduced in Kettler Knolls. Yes, folks too many people of late, have been taking advantage of our curved streets. The faster they go, they better they like it but those of us with children are very worried. So, please, slow down—it may not be Kettlerites; there are many people from out of town who cruise around here, so spread the word around—SLOW DOWN!
